NERELLO

RELEASE DATE:
FEBRUARY 2021

SICILY, ITALY

Sun-kissed Sicily has been growing grapes for more than 3,000 years; the hot temperatures, consistent sunshine and moderate rainfall make it a wine haven. The slopes around Mount Etna on the island's east coast are a sweet spot for Nerello, where the higher elevation brings cooler nighttime temperatures which help maintain the grape's desirable acidity. The volcanic soils impart mineral notes on the grape, and with Etna's frequent eruptions, soil composition is constantly transforming.

NERELLO

Grown on the slopes of an active volcano, Nerello is a wine that knows how to get your attention and keep it. Appealing aromas of cherry, strawberry and rose unfold into juicy red berry and crushed strawberry flavours with hints of cinnamon and herbs. Sleek and savoury with earthy and mineral nuances, fresh acidity and smooth, polished tannins.

SWEETNESS: DRY
BODY: MEDIUM-FULL
OAK: MEDIUM
ALCOHOL: 13.5%

JUST *fine* wine
